

## Call for CMS MathEd (Online) Meeting Presentation Proposals

2024 CMS MathEd Meeting (Online)

The Canadian Mathematical Society (CMS) welcomes and invites education presentation proposals for its event, the 2024 CMS MathEd (Online) Meeting from

Friday, November 22nd, 2024, (from 17:00 EST to 20:00 EST), and

Saturday, November 23rd, 2024, (from 11:00 EST to 15:00 EST)

For this meeting, we will accept proposals on any theme in mathematics education.

Education presentation proposals will be selected by the CMS Meeting Education Session Committee, which will also schedule the accepted sessions, in communication with their proposer(s).

### Proposals should include:

- (1) Names, affiliations, and contact information of the presenter(s). This is a fantastic opportunity for early career researchers and practitioners to propose presentations.
- (2) A title and brief abstract of the presentation.

All presentations will be of the standard CMS length: 20-minute presentations + 5-10 minute Q&A.

The deadline for the presentation proposals is **September 27th, 2024**. There is a limited number of presentation spots. Preferences will be given to early submissions.
